

## ***Warren Yachts launches second S87 with two more under construction.***

*July 19, 2006, Brisbane, Australia – The first of the new Warren Yachts S87 series was sold in the Mediterranean. The second S87, the first of a new 3 stateroom configuration, will arrive in Florida in time for the Ft Lauderdale Boat Show. Two other S87s are under construction at the Brisbane yard with an S120 being started and a second one to follow immediately. The Warren Sport Yacht series now includes the S77, S87 and S120.*

*To facilitate the growth and construction of the Sport series, Warren Yachts, a division of the Shipworks Group has recently completed work on a new fiberglass shed that will make possible the building of one 87 or 77 every three months. There is also more than enough room for a 120 line and a custom build to 300 feet to be under construction at the same time.*

*The Brisbane Shipworks Group facility, the newest and largest shipyard in the southern hemisphere, can support the robust growth Warren Yachts is now experiencing from sales in Europe, the US and Australia.*
